INTRODUCTION

USING THE QUADRATIC FUNCTION

Click on the buttons to display a quadratic equation in the following format on the display textfield

$$2x^2 + 7x + 3$$

$$x^2 + 5x + 6$$

$$x^2 + x - 6$$

When done, select from the quadratic menu, (solve quadratic equation) to display the answer on the screen.

To use any other function such as sin, cos and tan. It should be in the following format
sin (5) or log (10) or tan (8)
